### President Reveals Information About London Meetings

Washington, Sept. 8.—(P)—The White House disclosed today, after President Roosevelt had made it plain that preparations were under way for opening a second front in Europe, that the "necessary decisions regarding military operations" were made at a London conference between British and American officials in July.

The conference, held with Prime Minister Winston Churchill and the British chiefs of staff, lasted ten days and covered the whole conduct of the war.

This government was represented by Harry L. Hopkins as President Roosevelt's personal representative, Gen. George C. Marshall, army chief of staff, and Admiral Ernest J. King, chief of naval operations.

Stephen Early, presidential secretary, was in London at the same time conferring with Brendan Bracken, British minister of public information.

The decisions on military operations were, of course, not revealed, although Mr. Roosevelt in his "first side chat" last night pointed out that there were at least a dozen different places at which attacks could be launched.

There was a probability that the meetings, described by the White House as important were related directly to the recent conferences in Moscow between Churchill, Soviet Premier Joseph Stalin and W. Averell Harriman, American lend-lease agent in England.

President Roosevelt told of the offensive preparations in reporting to the nation that he had called on congress to give him quick and specific authority to stabilize the cost of living as a means of averting economic chaos on the home front.

Declaring he would accept the responsibility and act on his own initiative if congress failed to respond with adequate legislation by Oct. 1, Mr. Roosevelt said he would not hesitate to "use every power vested in me to accomplish the defeat of our enemies."

In a front-by-front review of a global war which he said would cost this nation nearly one hundred billion dollars in 1943, the president said the aim in Europe was an offensive against Germany.

"There are at least a dozen different points at which attacks can be launched," he said. "You, of course, do not expect me to give details of future plans, but you can rest assured that preparations are being made here and in Britain to carry out this purpose."

"The power of Germany must be broken on the battlefields of Europe," he said. "On the Russian front, he said he Germans 'are still unable to gain the smashing victory which, almost a year ago, Hitler announced he had already achieved.' Russia will hold out despite any setbacks, he said, and with the help of her allies will ultimately 'drive every Nazi from her soil.'"

In the Pacific, he warned that the Japanese, while stopped at one major offensive, "still possess great strength" and undoubtedly will strike hard again.

The battle for domination of the Mediterranean and Middle East area has been joined, he said, with the Axis powers fighting to gain contact with the Japanese navy.

But on the home front, the president said, "we are not doing enough."

### Great Allied Victory in The Desert Reported by Wilkie

Ankara, Turkey, Sept. 7.—(De-  
clayed)—(P)—Wendell L. Wilkie,  
personal representative of Presi-  
dent Roosevelt, disclosed today on  
his arrival by plane from Cairo  
that 100 of Field Marshal Erwin  
Rommel's 200 first line tanks were  
knocked out by Allied forces in  
the first battle of the recent Axis  
offensive in the Egyptian desert.

"Rommel is in a hole," Wilkie  
declared in a press conference in  
the residence of U. S. Ambassador  
Laurence A. Steinhardt.

"He attacked the Allied posi-

tions and had 100 of his 290 first  
line tanks knocked out by Allied  
forces in the first battle. I saw  
the ruins of these tanks myself."

"I am convinced that Rommel  
has lost 40 per cent of his punch."

Wilkie, who visited the desert  
battlefield while in Egypt, said  
the truth of a great Allied victory  
in the Egyptian desert had not yet  
been made entirely public.

"Rommel claims that his man-  
euver was only for reconnaissance,"  
he said, "but a few more of  
these and he won't have any  
troops left to fight with."

### WAR BULLETINS

London, Sept. 8.—(P)—The German-controlled Paris radio  
suggested today that British and American citizens in unoccupied  
France should be made hostages because of the Flying Fortress raids  
in Rouen, which is in occupied territory.

Chungking, Sept. 8.—(P)—Generalissimo Chiang Kai-Shek has  
appointed Dr. Hu Shih, until recently Chinese ambassador to Wash-  
ington, as a high adviser to the Chinese cabinet, a new post, it was  
announced tonight.

Guayaquil, Ecuador, Sept. 8.—(P)—Col. Roberto Romero, de-  
fense minister, has disclosed that United States troops have occupied  
ases in Ecuador and the Galapagos Islands off the west coast of  
outh America since the start of the year.

Reykjavik, Iceland, Sept. 8.—(P)—Gen. George C. Marshall,  
my chief of staff, praised the "high state of efficiency of the Ice-  
land command" when he visited United States troops here the latter  
art of July, it was disclosed today.

Chungking, Sept. 8.—(P)—Japanese troops in Kwangtung pro-  
vince have retreated to Funkai, 15 miles north of the important  
postal city of Canton, a Chinese army spokesman said today.

#### Japan Believed Making Plans For Early Attack on Russia

Siberia, Chungking Reports  
Suggestions to Kremlin  
Since Tokyo Cabinet  
Shakeup Rejected

MASSING ON FRONTIER

By the Associated Press  
Reports circulating in Chung-  
king, China's war-time capital,  
said today that Russia had re-  
jected "suggestions" made by Japan  
in the last few days and that a  
break into open conflict between  
the two nations was expected at  
any moment.

These reports, unconfirmed,  
elsewhere but closely attuned to  
recent indications of Japanese pre-  
parations to attack Soviet Siber-  
ia, said Japanese Ambassador Na-  
otake Sato had presented the  
"suggestions" to the Kremlin since  
the Tokyo cabinet shake-up last  
week.

Presumably the "suggestions"  
involved Japanese demands on Rus-  
sia's Pacific maritime provin-  
ces, particularly the key port of  
Vladivostok only 650 miles by  
bomber across the Sea of Japan  
from Tokyo.

Military analysts pointed out  
that such demands might serve as  
a pretext for a Japanese invasion  
of Siberia, seeking to guard ap-  
an's northern flank for an ulti-  
mate major operation against Al-  
aska or the United States Pacific  
coast.

Upwards of 500,000 Japanese  
troops, including many thousands  
withdrawn from the East China  
war theater, have been reported  
massing recently along the Siberia

#### FIVE FATALITIES IN FAYETTE OVER HOLIDAY

Uniontown, Sept. 8.—(P)—Fay-  
ette county's violent deaths over  
the Labor Day weekend reached  
five with the fatal burning of two  
small children of a miner at Leis-  
enring Number 1.

The children, John J. Mohall, 6,  
and Eleanor, 8, perished in an up-  
stairs bedroom Sunday as their  
father, John Mohall, tried desper-  
ately to reach them by climbing up  
the outside of the flaming two-  
family building. The fire started  
sometime after Mohall had left to  
get his wife at a neighbor's house.

Coroner Lee R. Herrington re-  
ported one of the victims, a  
stranger 50 or 55 years old killed  
by a train on Saturday, probably  
would be buried without being  
identified. The body was mutilat-  
ed badly, although a bottle of  
whisky in a coat pocket was un-  
broken.

#### SEVEN ROCHESTER BOYS INJURED IN ACCIDENT

Holidays Nove. W. Va., Sept.  
8.—(P)—James Milton Atkinson,  
19, one of seven Rochester, Pa.,  
youths injured when their auto-  
mobile struck an underpass on  
West Virginia highway 2 south of  
here, died seven hours later in  
Ohio Valley hospital yesterday.

Ted Ennarelli, Brooke county  
deputy sheriff, said the boys had  
spent Sunday night in Wheeling  
and were enroute home at the  
time of the accident.

#### Production Award For Sheffield Plant

Washington, Sept. 8.—(P)—  
A total of 45 industrial  
establishments have been se-  
lected to receive the joint  
Army-Navy Production Award  
in recognition of outstanding  
performance of war work, the  
war and navy department an-  
nounced jointly today.

Among army-operated es-  
tablishments selected for the  
award was Frankford Arsenal,  
Philadelphia.

Other establishments includ-  
ed:

Bonney Forge and Tool  
Works, Allentown, Pa.; Ford  
Motor Company, Chester, Pa.;  
O'Connor Machine Company,  
Sheffield, Pa.

### 900 Jobs Are Classified As Critical

Local Boards Instructed  
Each Case Must Stand  
on Individual Merits

DEFERMENTS ARE RIGID

Harrisburg, Sept. 8.—(P)—More  
than 900 occupations have been  
classified as critical and essential  
to the war effort by selective  
service officials but Pennsylvania's  
122 local boards are instructed  
that "each case must stand on its  
individual merits" with no automa-  
tic deferments.

Colonel Benjamin F. Evans, ac-  
ting state director, said local boards  
passing upon an application for  
deferment from military service  
must first decide whether the re-  
gistrant is engaged in a certified  
activity and then if his particular  
job makes him a "necessary man."

The registrant must be employ-  
ed by a firm working on a war  
contract, performing a government  
service, a company necessary to  
civilian life in support of the war  
program or one supplying material  
to such firms.

These occupations have been de-  
signated as critical and essential:  
Electric power industry; anthra-  
cite and bituminous coal mining;  
railroads, shipbuilding and allied  
industries, coastal, intercoastal and

#### State Bond Quota For Month is \$60,000,000

Washington, Sept. 8.—(P)—  
Pennsylvanians were asked by the  
treasury department to buy at  
least \$60,000,000 worth of war  
bonds this month to help the na-  
tional September goal of \$775,000-  
000.

Philadelphia received the large-  
est county quota, \$21,201,900. This  
also was the fourth largest coun-  
ty quota for the nation. New York  
City, Cook County, Ill., and Los  
Angeles county, Calif., had larger  
ones.

Second highest county quota in  
Pennsylvania — \$10,562,900 — was  
assigned to Allegheny. Others  
which were asked to purchase  
more than a million dollars worth  
of bonds and stamps and their  
quotas:

Lackawanna, \$1,024,500; Erie,  
\$1,181,000; Westmoreland, \$1,192-  
100; York, \$1,236,500; Dauphin,  
\$1,124,600; Lancaster, \$1,085,900;  
Montgomery, \$1,525,200; Delaware,  
\$1,573,800; Luzerne, \$1,778,700;  
Berks, \$1,294,700; Northampton,  
\$1,482,700.

### Decrease in Enrollment Is Noted in Schools of Borough

A decrease in enrollment was  
noted today as school pupils re-  
turned to their classes after their  
summer vacation, and incomplete  
reports showed a loss of over 100  
students in the Warren borough  
school system.

Beatty and South Street schools  
showed sharp decreases and only  
Lacy, Seneca and McClintock  
grade schools reported minor  
gains, according to Superintendent  
John G. Rossman.

Taking the schools individually  
the report revealed: High school,  
912, off 24; Beatty, 760, off 47;  
East street, 183, off 4; Home  
Street, 122, off 2; A. Bessie John-  
son, 231, off 104; South Street,  
211, off 35; Lacy 244, gained 10;

### REPORT MADE TO COMMONS BY CHURCHILL

Prime Minister Says Storm-  
ing of Dieppe "Indispens-  
able Preliminary" to  
Bigger Things

RADIATES CONFIDENCE

London, Sept. 8.—(P)—A Brit-  
ish army is rapidly being strength-  
ened in Iran and Iraq "which may  
eventually give support" to Sov-  
iet Russia's imperiled left flank,  
Prime Minister Churchill disclo-  
sed today, indicating British pre-  
paration to enter directly into the  
battle of Russia if necessary.

His statement came in a detail-  
ed war report to the House of  
Commons which reflected confi-  
dence in the Allied situation gen-  
erally in the air and at sea and,  
specifically, on the vital western  
desert of Egypt.

The prime minister gave com-  
mons assurances both that Egypt  
was secure by the virtual raising  
there of a new Allied army, strong-  
er than ever, in the midst of battle  
and that the day for an offensive  
against Hitler's Europe is com-  
ing.

He called the Dieppe raid more  
than a commando attack, a recon-  
naissance in force which was an  
"indispensable preliminary" to  
greater undertakings.

Britain, he reported in a war  
summary to the reconvened Par-  
liament, "may be confident in our  
abilities to maintain a successful  
defense of Egypt not for days or  
weeks but for several months  
ahead."

These specific details fitted into  
what Churchill termed a contin-  
uing trend in the Allies' favor  
since his last report and with a  
complete accord between Britain  
and the United States on waging  
global war, an accord which he  
said has existed since the end of  
July.

At sea, also, he gave cheering  
news with the report that, though  
losses still are heavy, they had  
dropped so sharply that they are  
at a slower rate than replacements  
through new building.

"Our warfare on U-boats," he  
added, "has been more successful  
than at any other period in the  
war."

### Lower Draft Age To Meet Opposition

Washington, Sept. 8.—(P)—Re-  
turning to the capital in response  
to a call from Speaker Rayburn,  
high-ranking members of the house  
military affairs committee adopted  
a "show me" attitude today to-  
ward pending legislation to lower  
the draft age to 18 years.

The general sentiment of com-  
mittee members already here was  
summed up by Chairman May (D-  
Ky.), who said he was opposed to  
the induction of men under 20 un-  
less "the army convinces me it is  
absolutely necessary."

Representative Thomason (D-  
Tex.), ranking majority committee  
member, likewise said he would  
have to be shown the necessity for  
drafting 18 and 19-year-olds before  
he would support such a move.

May said he had no idea when  
his committee would start hear-  
ings on legislation introduced yester-  
day by Representative Wads-  
worth (R-NY), author of the origi-  
nal draft act, to lower the draft  
age from 20 to 18. Undoubtedly,  
the Kentuckian said, officials of the  
army, navy and selective service  
would be called upon to testify.

### Co. Grangers Getting Back Of Scrap Roundup and Picnic

"Farmers, Show Your Met-  
al," is Slogan For Col-  
lection Campaign

PRIZES ARE ANNOUNCED

Taking as their slogan, "Farmers  
Show Your Metal," the Granges  
of Warren county have thrown  
themselves wholeheartedly into the  
recently announced campaign to  
round up every ounce of scrap  
material on the farms of the coun-  
ty, according to a statement issued  
this morning by E. S. Knabenshue,  
chairman of the Warren County  
Salvage Committee. At the same  
time, the salvage head announced  
the appointment of A. A. Albaugh  
as special chairman for the Har-  
vest Picnic and Scrap Roundup to  
be held September 25 in Crescent  
Park.

With the cooperation of the  
Chamber of Commerce and its  
secretary, A. F. Kottcamp, solici-  
tation committees were at work  
all day today securing funds for  
what is expected to be the biggest  
picnic Warren ever had. Mer-  
chants, manufacturers, and profes-  
sional men are expected to con-  
tribute toward the support of the  
enterprise. It is believed that the  
goal set for the finance committee  
will be reached without delay.

"Everyone recognizes the critical  
nature of the scrap situation,"  
said H. B. Pettit, chief of the  
money-raisers. "They have heard  
Donald Nelson say there is less  
than two weeks supply of scrap  
metal in the country, and that un-  
less a huge stock pile is accumu-  
lated immediately, hundreds of  
mills will have to shut down, as  
some already have done. They  
have heard that the situation in  
Pittsburgh, where most western  
Pennsylvania scrap goes, is ter-  
rible."

"I have known Warren citizens  
will rise wholeheartedly to support  
this patriotic drive."

Simultaneously the following  
prizes were announced for the  
event: Grand Prize of a \$100 War  
Bond to the Grange turning in the  
biggest total scrap tonnage on a  
per capita basis. Second Prize, a  
\$50 War Bond. Third Prize, a \$25  
War Bond.

### Bomb Found In Jersey Plant

Newark, N. J., Sept. 8.—(P)—  
Discovery of a powerful time  
bomb in the Western Electric Com-  
pany's vast Kearny plant was dis-  
closed by the Federal Bureau of  
Investigation today with the arrest  
of an employee who supposedly had  
found it.

E. E. Conroy, assistant FBI di-  
rector, said the bomb had been set  
to explode at 11 p. m. Sunday, but  
that at 10:42 p. m. it was turned  
over to company guards by Bern-  
ard Joseph O'Donnell, 21, of Tea-  
neck. Guards ripped open wires to  
prevent a detonation.

Had the bomb exploded in a  
strategic spot, Conroy said, it  
could have killed 100 persons.

O'Donnell was charged with at-  
tempted sabotage, but Conroy said  
the prisoner protested he had made  
and planted the bomb only as he  
sought to demonstrate that it  
could be done.

### INITIATIVE IS TAKEN BY SOVIET ARMY

Reinforced German Shock  
Troops Said to Have  
Been Stopped in  
Dangerous Salient

TEMPO IS STEPPED UP

BY HENRY C. CASSIDY

Moscow, Sept. 8.—(P)—Defen-  
ders of Stalingrad were reported  
firmly regrouped today against re-  
inforced German shock troops  
seeking to enlarge a new and dan-  
gerous salient in the western de-  
fenses by non-stop attacks and  
southwestern lines also held over-  
night on battlefields stained with  
blood.

The Red army detachment took  
the initiative in a night raid, de-  
stroyed the headquarters of a Ru-  
manian battalion below the city,  
slew 80 Rumanian officers and men  
and blew up seven Axis ammu-  
nition trucks, the mid-day commu-  
nique said.

Germans wedged into Russian  
positions in the Novorossisk area  
of the western Caucasus, but were  
either driven back or held fast in  
the Mzodok region of the central  
Caucasus and they lost additional  
positions to the Russians on the  
central and northwestern fronts, it  
was announced.

Scores of Nazi planes were re-  
ported by Red Star to have failed  
to soften Russian lines appreci-  
ably west of Stalingrad, but the  
Soviet information bureau ac-  
knowledgeed a penetration by ground  
forces in that area. The Russian  
lines yielded, but remained in-  
tact.

While Field Marshal Fedor von  
Bock thus resorted to ever-costly  
frontal assault tactics, the army  
newspaper Red Star declared the  
tempo of attacks southwest of the  
city had been stepped up.

An invasion force was driven in-  
to retreat south of the Terek river  
in the Mzodok area and other Nazi  
efforts to extend their gains failed,  
the information bureau said.

The drive upon Stalingrad from  
the west gained only after repeat-  
ed efforts and then was contained,  
the Russians indicated.

A brighter Soviet picture was  
provided yesterday in the central  
Caucasus. The Soviet information  
bureau said counterattacks in the  
Mzodok area had forced the Ger-  
mans back.

Berlin (From German Broad-  
casts) Sept. 8.—(P)—The high  
command announced today that  
German troops had "taken further  
stubbornly defended heights" with-  
in the fortified area of Stalingrad.

It was reported that 168 Rus-  
sian planes were shot down Sunday  
and Monday, against a loss of five  
German aircraft.

The communique said 6,758 Rus-  
sians had been taken prisoner in  
the battle for the fort and harbor  
of Novorossisk, a provisional sta-  
tion of the Soviet Black Sea fleet.

Fighting is continuing around  
the seaport, the war bulletin re-  
ported, "with the enemy troops  
bitterly defending themselves."

Deeper in the Caucasus, the Ger-  
mans said the Russians made an  
unsuccessful counter-attack along  
the Terek river on the Grozny  
front.

### ROSS IS SPEAKER AT RALLY AT CHARLEROI

Charleroi, Sept. 8.—(P)—"We  
are exceeding our production  
quotas and winning the war by that  
fact," Auditor General F. Clair  
Ross told a Labor Day rally here  
yesterday.

"There is no need to ask you all  
to give your all-out support to  
those who fight, as you are already  
doing it," Ross declared, adding:

"Hitler and his slave labor can't  
win over democracy and its free  
labor."

Ross advised the workers to keep  
in mind the four freedoms as out-  
lined by President Roosevelt "to  
win an enduring peace."

### War Activities Pay Dividends In Lives Saved Over Holidays

By the Associated Press  
America observed the first war-  
time Labor Day in nearly a quar-  
ter of a century yesterday but mil-  
lions of workers for whom the  
holiday was designated—kept busy  
at their jobs to insure no inter-  
ruption along the industrial front.

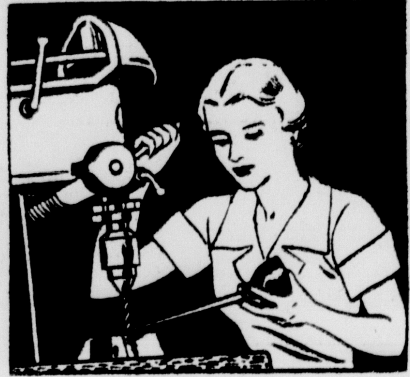

The wartime observance of the  
holiday, in addition to maintaining  
the flow of production, paid divi-  
dends in the number of lives saved  
attendant to the traditional  
celebrations normally staged  
throughout the nation.

The violent death toll for the  
three-day holiday, an Associated  
Press survey showed, was consid-  
erably smaller compared to the  
total for the week-end holiday last  
Labor Day. Especially was there  
a marked reduction in the number  
of traffic fatalities, always the  
leader in holiday death tolls.

The number of violent deaths in  
the 1941 Day holiday period was  
626, including 423 killed in au-  
tomobile accidents. This year's sur-  
vey disclosed a total of 286 viol-  
ent deaths, including 179 traffic  
fatalities. Drownings accounted for  
23 deaths while 84 persons died  
from other violent causes.

Christmas Seals Are  
Being Offered Early

Christmas seals for use on Christmas mail and packages for service men abroad may be had now from the Warren Tuberculosis and Health Society, 810 Pennsylvania avenue, east, according to announcement made today by the seal sale chairman, H. M. Mohr.

Mr. Mohr suggested that some individuals might also desire to send a sheet of the seals to relatives and friends serving in the armed forces outside the United States.

"This opportunity to secure seals in advance is provided because of announcement by postal authorities that Christmas mail for men serving abroad should be mailed by October, or no later than November 1," explained the local chairman.

The 1942 Christmas seals show a farm scene on a bright winter day, bear the words "Merry Christmas" and show the double-barred cross which is the world wide emblem of the fight against tuberculosis.

The use of this seal on gift packages, letters or cards will brighten and "dress up" mail going to men and women in foreign lands. The snow scene will appeal especially to the boys in the South Seas and other warm climates. In addition to increasing the Christmas appearance of the mail, the use of the Christmas seals will aid materially in the fight against tuberculosis on the home front during the war.

**MEETING TONIGHT**  
The Marconi Social Club will hold a meeting tonight at eight o'clock in their club rooms on Pennsylvania avenue, west. All members are urged to be present. Lunch will be served.

Tomatoes and lemons are berries.

In a belated contest to settle all disputes concerning the Tri-County League baseball title, Corry and the National Force will meet tomorrow night under the stars at Loveland Park, Corry, in the finale.

An oddity has arisen due to the fact that the two clubs will be fighting for the right to rule over a dead kingdom, inasmuch as the other two members of the area semi-pro loop have quit the circuit.

Nevertheless, tomorrow evening's attraction is expected to draw a capacity throng of diamond fans to the Corry ball park. The Merchants turned back the talented Cleveland Fisher Foods yesterday, 9-8, in 10 innings.

## Obituary

**EDWARD J. WEIS**  
Edward J. Weis, 18 St. Clair street, passed away at the Warren General Hospital at 2:15 a. m. today after a brief illness. He was born in St. Marys December 31, 1871 and had been a resident of Warren for the past 31 years.

## REMAIN OPEN

All grocery stores will remain open tomorrow, Wednesday, on account of the one day closing due to the Labor Day holiday yesterday.

## COUNCIL MEETING

The regular meeting of the borough council will be held in the city building, beginning at 7:30 o'clock this evening. It was announced today.

## WILL HONOR PASTOR

The congregation of the First United Brethren church is extending a cordial welcome to all friends to join in the reception to be held in the church at 7:30 p. m. Thursday to honor the pastor, Rev. William G. Woodward. He has been returned by conference to start his second year in the local pastorate.

## AT Y SESSIONS

Ralph H. Wagner, new general secretary of the local Y. W. C. A., is in hampersburg for the 14th annual conference of Pennsylvania employed officers of Young Men's Christian Associations. Friends of T. F. Epley, who has just left Warren for work in Erie, will be pleased to know that he was paid honor during the opening sessions for ten years of service to the association.

## PASS EXAMINATIONS

Of the 35 Titusville region selectees who went through the physical examination "mill" at the Erie armory last week, 26 received Uncle Sam's final stamp of approval and were inducted into the army. The 26, now army reservists, returned home late in the afternoon with those rejected. They will have two weeks in which to settle their affairs before bidding farewell to civilian life.

## SHARP DECREASE

A report from the local barracks of the state motor police today disclosed a sharp decrease in automobile accidents this year in comparison with 1941. Up to this time last year 110 accidents had been investigated by the motor police in the county, while only 55, just half the 1941 number, have been reported thus far this year. Traffic is reported to have decreased in the county nearly as sharply.

## SET NEW RECORD

In addition to taking first low net with a 71 in the mixed foursome at the Country Club on Labor Day, Mrs. John L. Blair and H. D. Hubbs established a new mixed foursome low of 38 for the first nine holes. Their tallies stood at 44-54-265-38. Second low was 46-56-274-40 by Mrs. Art Johnson with 76 and low gross to John Carter and Mrs. Plumer Printz. There were 24 players entered in the match and about 90 at the clubhouse for the holiday luncheon.

## AT CONFERENCE

Sniley, First; Rev. M. I. Harding and John Anderson, Epworth; Dr. H. H. Barr, Dr. J. H. Clemens, Roy Krebs and S. M. Prescott, Grace. Sessions open today and continue through next Sunday, when pastoral appointments for the coming year will be read.

## WHO FOUND A PURSE?

On the classified page of this issue appears an advertisement regarding a purse that was lost by a Warren woman whose husband has been bed-ridden for months, and whose son is in the service of his country. The purse contained among other things money recently received from the government for dependency and the loser can ill-afford to be deprived of this sum. It is hoped that the finder after reading this item will see that the purse and contents is returned to her owner as speedily as possible.

## PASTOR IS RETURNED

Rev. J. E. Kiffer is returned for another year's service to the local Free Methodist church according to the stationing report presented at the closing conference sessions in Titusville. Joseph McConnell, U. S. N., has arrived from Pensacola, Fla., for a leave with his parents, Mr. and Mrs. Arthur McConnell, Cobham Park road. He will return on the 15th of the month.

Word was received Sunday by relatives in Warren that Thomas J. Masterson, and G. William Erickson have been transferred from Fort George G. Meade, Md., to an unidentified camp. Both boys are with a wire signal maintenance company and were former employees of the local Bell Telephone plant.

Everett "Pete" Hedges, who has been in the army air school at St. Petersburg, Fla., has just been transferred to Sioux Falls, S. D., according to word received by his family.

Word has been received here by Mrs. Wm. Brader that her husband, Pvt. Wm. Brader has been transferred from Miami Beach, Fla., to Sioux Falls, South Dakota. Mr. Brader is in the army air corps and will train as a radio operator mechanic.

John Blech, 25, son of Mr. and Mrs. Fred Blech, 21 Locust St., was a member of the latest class of aviation cadets to graduate from

the new Columbus Army Flying School near Columbus, Miss. He received on Sunday the silver wings of a flying officer and commission as second lieutenant in the Army Air Forces. Lt. Blech started his pilot training January 2 and attended schools at Dorr Field, Fla., and Gunter Field, Ala., before which time he had been a private in the field artillery.

Mr. and Mrs. E. C. Aubitz, 310 Prospect street, report they have been hearing regularly in the past several months from their son, Pfc. Charles Aubitz, and are now permitted to disclose his location, which is the Island of New Caledonia, off the northeast coast of Australia. He has been there since March 10, a member of the first contingent to arrive in Australia. He writes that the boys all crave

mail, books chewing gum, safety razor blades and comic papers and books. His last letter stated when his outfit had received a shipment of new tools via truck a familiar trade mark met his eye and investigation revealed axes from the Warren Axe and Tool Company of Warren. Natives of the island, he says, are very friendly and interesting and French is the language spoken. His address is Pfc. Charles H. Aubitz, A. P. O. 502, c/o Postmaster, San Francisco, Calif.

## Kiwanians To Hear Speaker of Prominence

Invited to come here by R. L. Kimberland, manager of Personal Finance Co., and member of Warren Kiwanis Club, Mr. Curtis A. Williams will be the speaker at the Wednesday noon luncheon meeting to be held at the Carver Hotel.

Mr. Williams graduated from the University of Tennessee in 1915 with the Bachelor of Arts degree in Education; received a Master of

Arts degree in Sociology and Economics at Vanderbilt University in 1920. In the meantime he served both the State Committee of Tennessee and the International Y. M. C. A. Committee as Student Y. M. C. A. Secretary. Upon receiving the Masters degree he went to teach Sociology and Economics in the State College of North Carolina. There he taught Sociology, Social Problems, Community Organization, Social Psychology and Economics. He later did graduate work at the University of Chicago and one year of graduate work at the University of Pennsylvania. In 1930 he joined the staff of the Pennsylvania Committee on Penal Affairs for Research and Advisory Services. In 1932 he became Secretary of the Western Branch of the Pennsylvania Committee on Penal Affairs of the Public Charities Association of Pennsylvania, in Pittsburgh and held that position for six years. In 1934 he was appointed Western Representative and placed in charge of the western office of the Public Charities Association of Pennsylvania, of which the Penal Affairs Committee is a division. That position was held until 1938 when he accepted appointment to his present position, Director of Social Relations and Research for the Pennsylvania Association of Small Loan Companies.

Mr. Williams' talk to the local club tomorrow will be of a nature to help the Kiwanians in their present program of "Safeguarding Democracy by Individual Service".

The Suez Canal was 13 years in construction.

Kane Republican Auditor General F. Clair Ross, Democratic candidate for governor, made an unheralded visit to Kane Saturday afternoon, when he met with a group of party leaders from the borough and county. He was accompanied by John C. Brecht, of Franklin, Democratic nominee for Congress. Local Democrats had only a few hours notice of the surprise visit, but among those who welcomed the gubernatorial nominee at the New Thomson hotel, where he arrived at 3 p. m., were County Chairman G. A. Simpson, of Bradford, who is also the McKean county member of the Democratic State committee and Maxwell J. Moore, of Bradford, former McKean county member of Assembly.

## Employment Service Has Busy Period

The United States Employment Service for Pennsylvania found jobs for 7,300 persons in the week ending August 21, registering a gain of 8 percent over placements so far this year, according to a report released today by H. Raymond Mason, USES Director for Pennsylvania.

"Increasing emphasis is being placed upon utilization of women and older workers in many parts of the state to replace the manpower being drained into the armed forces," Mason said. "This agency is also making a continuous effort to refer trainees to the government - sponsored vocational training courses, so that these facilities may be used to the fullest possible extent."

Offsetting the decline of the past two weeks, the gain in job placements brought the weekly total to approximately the same level as in the average week last month.

Applications for employment also gained in the reported week, numbering 21,200. This figure was 5 percent above the total in the preceding week, but was still al-

**MOBILIZING NATION'S WOMAN-POWER**

Women truck drivers, women crane operators, women riveters, women welders, women airplane mechanics—these are just a few of the many war jobs filled by women who, in recent months, have joined America's production army. Throughout the nation, women workers by the thousands are pouring into vital war industries, many of them to hold down jobs that up to now have been restricted to men. From all reports, these feminine production soldiers are doing an excellent job, too, and their numbers will undoubtedly continue to grow in coming months.

D. W. Levine, Manager of the Warren office of the United States Employment Service, reported today that throughout Pennsylvania employment of women in major war plants increased by 3500 between May and July, and that trend is continuing upward at a steadily increasing rate.

Throughout the nation, Mr. Levine pointed out, more than three million important war jobs are now filled by women and the number is expected to reach four million by the end of this year. By the close of 1943, the number of women working in war production is expected to total approximately six million, he added.

Throughout its nation-wide network of 1500 full-time offices, the U. S. Employment Service is playing an important role in mobilizing the nation's womanpower. Women, as well as men, who have not yet found their place on the war production lines, may register at their local U. S. Employment office. There they secure full information on employment opportunities. More and more women are being referred by USES offices to free government-sponsored vocational training classes which prepare the trainees through intensive courses for jobs in war industry.

"As our manpower is drained faster and faster into the nation's armed forces, the importance of women in the labor supply picture grows rapidly," Mr. Levine declared. "Recent government studies show 80 percent of the important war jobs can be adequately handled by women. Out of 624 key occupations surveyed, it was found that women can perform all but 57."

"We, in the United States Employment Service, are witnessing the whole-hearted enthusiasm with which women are taking their place in training courses and in every kind of war industry. We know that they will play a big part in winning the crucial battle of production," he says.

**LABOR DAY IN OVERALLS**

Pennsylvania, "workshop of the United Nations", greeted labor's traditional holiday in overalls yesterday.

Steel mills, foundries, shipyards and machine shops throughout the Keystone State made Labor Day, 1942, literally a day of labor—dedicated to non-stop production for victory.

According to reports, Pennsylvania's observance took a solemn, sometimes grim note from the war. Yards along the Delaware river launched thirteen ships. In Pittsburgh a new-type "invasion boat" and submarine chaser came off the ways. Besides the launching, 18 keels for new ships were laid in the Pittsburgh and Philadelphia areas.

"Free labor will win the war," was the keynote of many celebrations for which laborers, service men and screen radio stars combined their talents.

So far as Warren was concerned it was one of the quietest holidays in years, with but few of the plants engaged in defense work operating.

The community extends a warm welcome to Dr. Herbert A. Rinard, retired army colonel, who on Sunday delivered his first regular sermon as supply pastor in the First Lutheran church for the duration. Dr. Rinard and his wife will make their home here, coming from Randolph Field, Texas.

Warren kiddies trekked back to school today in a downpour of rain, which didn't help to brighten the situation for them.

The county may be proud of the fact that the triple holiday passed without a serious accident.

Looks like a Second Front is just around the corner.

**Question for Future Historians**

**WASHINGTON IN WARTIME**

By JOHN GROVER

(For Jack Stinnett On Vacation)

**WASHINGTON**—As we all know, the war isn't fought alone by men with guns. It's fought as well by the men and women at home. But that isn't all either. It's being fought by the nation's youth.

This is the story of what one large segment of our youth—240,000 members of the Future Farmers of America—is doing in the ways open to it, some of them small ways, some of them not inconsiderable importance.

F.F.A. war activity takes four main lines: (1) Buying War Bonds and stamps, (2) raising food, (3) salvaging war materials, (4) repairing and reconditioning farm machinery.

**H**ERE are extracts from a few of the thousands of reports coming in from F.F.A.'s 7,500 local chapters to national headquarters:

1. **Buying War Bonds and stamps**—

Rison, Ark.: "A total of ten \$25 bonds has been purchased by four of the boys. Three other members have purchased defense stamps."

Sargent, Colo.: "Due to the shortage of rubber, the chapter voted not to visit the National Western Stock Show this year, and to turn the money into defense saving bonds."

2. **Raising food**—

Hoopa, Calif.: "Hoopa Future Farmers are practicing a 'live at home' program. Stock carrots and beets have been planted in the chapter orchard for pig feed. Boys have transplanted strawberries, planted a defense garden, worked the vineyard and a three-

acre field corn plot planted for hog and chicken feed. The chapter has given away hundreds of tomato and cabbage plants for victory garden plantings and hundreds of grape cuttings to Indian farmers."

Jefferson, Ia.: "F.F.A. members are raising 'Victory Pigs.' All boys with sow and litter projects have designated one pig as a 'Victory Pig.' The proceeds from the sale of these 'Victory Pigs' are to be used to purchase U. S. defense bonds and stamps."

JOTA, La.: "The Jota F.F.A. chapter, 140 strong, has launched a 'Food for Freedom Contest.' The member who does the most toward increasing and improving poultry, garden, dairy cattle, meat, animals and fruits on his home farm will receive a \$25 U. S. defense bond."

3. **Salvaging war materials**—

Kismet, Kas.: "We plan to salvage old machinery that is not usable any more."

Shorthorn, Va.: "The chapter elected two captains and chose sides. The main object was to see which team could get the most scrap iron. The teams have sold 5,200 pounds of scrap iron."

4. **Repairing and reconditioning farm machinery**—

Herndon, Fla.: "During the shop program 185 tools were re-handled and put back into use, 18 plows were repaired, 18 wheelbarrows, five screen doors, 32 lawn chairs, five bee gums and a trailer for collecting tools were made."

Canton, S. D.: "We have made a survey of the machinery repair needs on the farms and are beginning a repair program in the farm shop."

them with the phrase "job writers," which is the same as "corn" in the realm of music.

Dashiell Hammett of course ranks high with this band. Hammett, they insist, is a first rate novelist in any field of fiction. They cite "The Maltese Falcon" and "The Thin Man" as enduring documents of our times. Their displeasure at bad imitators of Hammett—practitioners of strong language—is measureless. They have a fondness for Raymond Chandler, who, though of the "tough guy" school, has a style and humor of his own, which, while not alien to Hammett's, yet is more derivative. Mabel Searcy, who sets her stories in Minnesota, is another who has the support of this discerning group.

**B**UT their special darling is Joseph Shearing. This Shearing is a woman who bases her stories on crimes of the last century, and earlier. Her masterpiece is "Moss Rose," though there are those who prefer "Blanche Fury." Her latest, "The Spectral Bride" is of course the topic that engages them in their current huddles. Mr. or Miss Shearing (that isn't her real name) is also the author of a life of Charlotte Corday, called "The Angel of the Assassination."

Incidentally, the most serious crime a writer can commit, in the eyes of this critical group, is to allow his detective to drink to excess. The heroes of Hammett and Chandler and others like their nip, but the operative who breaks fast on brandy, lunches on rye and snacks all day off the bottle strikes them as an irresponsible fellow, unworthy of their support.

Everybody Reads the Times-Mirror

**From where I sit ...**

by Joe Marsh

It's real puzzlin' when you stop to think about it ...

I mean the way the human race has worked out a whole set of cut-an'-dried alibis for its misdeeds and shortcomings.

Some of them's harmless alibis—like the office boy's grandmother who always passes away just before the big baseball game.

Here's some others. "My alarm clock didn't go off." "I left my money in my other suit."—"I was settin' up with a sick friend."

And then the one about the two beers. Now that one is downright exasperatin'.

Because there's not a shred of truth in it.

Every once in a while I read in the papers about some ornery cuss, who never did know the meanin' of moderation, gettin' himself into trouble—

—and then protestin' that all he had to drink was "a couple of beers."

He knows it isn't true. He's just sayin' that because he knows that

"a couple of beers" sounds moderate and sensible-like—and it is.

Personally, I don't ever remember seein' a couple of glasses of good beer, enjoyed among friends, hurt any normal, sensible person.

If you won't get in trouble without beer, you aren't going to get in trouble with it.

Matter of fact, it's been my observation right along that a friendly glass of beer in pleasant sociability leads to just the opposite of trouble.

It goes along, seems to me, with good companionship, and moderation, and tolerance for the other fellow.

Yes, sir, from where I sit, it looks like the fellow that goes and gets himself in trouble, and then blames it all on a "couple of beers" isn't really foolin' anybody.

But he is bein' mighty mean and unfair to the people that enjoy the right to a sensible moderate drink like beer—yes, includin' "a couple of beers."

**HOLLYWOOD SIGHTS AND SOUNDS**

By ROBBIN COONS

**HOLLYWOOD**—Jimmy Cagney is looking ahead to a day when Jimmy Cagney's name on a movie marquee won't draw in weary vagrants to snooze the night away on plush seats—free.

That's a funny piece of forward-looking for Jimmy Cagney today—for a Cagney who now has his potentially biggest hit fresh on the stands, for a Cagney who after "Yankee Doodle Dandy" could write his own ticket on any lot he chose.

But that is exactly why Jimmy Cagney, as clever a fellow as he is dynamic, is doing what he's doing. Out at Warner Bros., where they made "Yankee," they sigh hopefully, muttering invocations which add up to a gentle hope that United Artists will dissolve maybe, or that the government will freeze people in the jobs they held last January 1, or—better yet—that Cagney will change his mind.

**H**E won't. He's going into his own company, his and brother Bill's, in United Artists. They're going to make pictures Jimmy can't make. Bill the producer, just as on "Yankee," Shades of Charles Ray, Gloria Swanson and other stars who came a-cropper doing their own productions! But the Cagney deal isn't like that. Only a Croesus can gamble his own money on his

pictures nowadays. The Cagneys aren't doing it.

Jimmy told about it out at his house the other day—between telephone calls. He had a few of those: he's chairman of Hollywood's War Activities committee, which is some job; he had a call to lead a shipyard community sing, which he accepted; he had others about the local bond-selling premiere of his picture—for which he couldn't use his own \$25,000 bond ticket because he'd be off on a bond-selling tour. He would jump up, with George M. Cohan vitality, chin into the telephone, come back and take up the talk where he left off.

He's been at Warner's a dozen years—except for the couple of films he did elsewhere after winning his release in court.

"How many stars can you name today—stars who were here 10 years ago?" he asked.

I named a few but—got his name.

I had to admit that those I named had seen their better days. But Cagney himself?

"There comes a time," he said, "and it's smart to plan for it before it comes. Right now is the time for me. If you like the business, and want to stay in it, you plan to go into production—before you have to."

They're going to make first some light story—with a pertinent war message punched home under the lightness.

## EARNING MORE?

## SAVING MORE?

Sure, it's good to be earning more money. But the important thing is: Are you saving more? Remember the last war, and those boom days in the late 20's. Lots of people earned big money then, but only a few had the foresight to save some of it. Look ahead, to tougher times that might come, and SAVE. We'll welcome your opening an account at this bank now.

## Plans Outlined for Forming Reserve Corps Auxiliary Here

Word has been received from the Dept. of Military Affairs at Harrisburg approving the nomination of C. D. Cannon as organizer of a Company of Penn'a. Reserve Defense Corps Auxiliary for Warren county. The company is to consist of 63 men and officers and definite plans for a recruiting drive will be announced as soon as possible. In the meantime, any one who wishes to have their name put on the application list may do so by calling phone 150-W any evening.

Duties of the Defense Corps Auxiliary will be to guard war production plants, bridges or other vital spots within Warren county in case the regular Defense Corps is inadequate in numbers or is called outside the county. Service will be without pay, the same as other civilian defense organizations, and members will furnish all their own equipment from shoes to ammunition. The Dept. of Military Affairs will furnish arm bands and other means of identification. There will be no military drill but there will be meetings not often than every two weeks, for instructions.

Any citizen of the United States is eligible to join but applicants must not be in a selective class likely to be called soon. Men already in one of the other civilian defense organizations may apply but they will not be accepted unless they furnish written approval or release from the other organization.

### Classify Headache Under Types

BY PAUL BRAUNSCHWEIGER  
of the Mullen Drug Co.

Doctors classify headache under three different types. Only one of these, the mechanical, indicates the source of the pain as really in the head.

Mechanical headaches derive from injury, slight or serious, to the head. All other kinds fall under the other two types, toxic or functional.

Toxic pain, of course, comes from poison in the system. Functional headaches are caused by strain or worry.

A physician is able to determine what type of headache you are suffering from and what can be done about it.

His scientific knowledge and advice are best abetted by that other capable scientist—the reputable druggist.

SIDE GLANCES . . . . By Galbraith

"It's the same thing every night. Mother—he waits until we get started and then says there's not room for him to work!"

WILDERNESS GIRL

By LETA ZOE ADAMS

Chapter 21

The Spy

HE BROUGHT up so short that the others, stumbling along behind, almost ran him down.

"We'll have to go back. I've missed the door."

"The air current is strong here. Maybe it will lead us out. Let's keep going," Gil barked.

Sandy hesitated. It was a chance, either way. The passage might lead to the surface somewhere, and the menace was in the Chamber of the Serpent God, through which they must pass again if they sought the other entrance!

"Keep close and look sharp!" he directed, and started on.

They had gone only a few yards when they emerged into another cavern, smaller than the first but, like it, festooned with quivering icicles of stone. Sandy held up a moistened finger and found the direction of the current once more. They crossed the knobby floor and entered another tunnel. It turned and twisted upon itself, expanded and contracted, but the general trend was downward.

Sandy could not tell how far they had gone, but it must have been half a mile when, in making a turn, he caught a glimpse of light ahead. Shortly thereafter the passage widened and they found themselves at the mouth of a hillside cave several hundred feet above a U-shaped canyon in the face of the plateau. At the arch of the U, a cascade tumbled from the cliff, like a fault-line of cut crystal through the agate-green jungle.

The country was completely strange to them, strange and achingly lovely in its virgin aloofness.

They gathered at the cave mouth, murmuring their relief and astonishment.

"We made it!"

"Wonder if there is any way to get down without hacking through the bush."

Then Tyra cried out—"Look! There—see? Isn't that a man?"

Their eyes followed where she pointed and, presently, saw a brown, shadowy form moving among the bushes some distance below on the face of the cliff. There could be no mistake. It was a man.

"Looks like an Indian," Sandy exclaimed, his mind reaching out desperately to grasp the meaning of an Indian in that wilderness.

"He must have come from this passageway."

"It was he we heard!" Helen observed. "He must have been watching us."

Down The Path

A GUARDIAN of the codex? Sandy said slowly. Where there is one Indian, there must be others.

Gil had been scouting along the lip of the cave and now called from a short distance—"Here's a path, chief! It goes down."

Sandy's eyes remained fixed upon the Indian. He had reached the base of the precipice now and, suddenly, vanished in the heavier growth of the canyon.

Helen passed closer to Sandy. "We're going to follow him, aren't we? We can't go back—not knowing."

"I wouldn't want to quit here, no."

Helen urged—"Tyra and I have revolvers. Four of us armed make quite an army."

Sandy looked across at Tyra. She had been facing the mouth of the cave, but she turned with a flash of her hazel-brown eyes and sent him a smile so gay so light-hearted, that he was reminded of that first time he had seen her dancing at the fiesta with the Tehuano.

"I came for the ride, you know, and if it's a giddy ride I have only myself to blame. Besides, a dimple appeared briefly, miraculously, 'I have a regular car-

buncle-some curiosity. That Indian isn't one of our Yatusi and I want to find out who he is."

Her frolicsome mood was puzzling to Sandy after the harassing experiences of the last hour or two. However, he accepted it as a gift of the gods, and calling the group together, gave a few simple instructions.

"We might be ambushed," he warned them. "If we are it will mean shooting our way out. We might be attacked with spears or arrows. Whatever happens, keep your heads and wait for orders. If I'm out of commission, you carry on."

They started down the switch-back trail cautiously, in the same order as before.

It was inconceivable, Sandy reflected, that there should be any Indians in the area of the Maya city since in all the weeks of travel from the Rio Flamboyon they had not seen the slightest indication of human life. Of course they did not know near the plateau was to the other slope of the Continental Divide, which led into Tabasco and Guatemala. The plateau might be much closer to settlements on that side than the way his party had come. So little was known about any of this country as he had discovered, in Mexico City, when he attempted to obtain maps. The thing to remember, he supposed, was that anything was possible.

The path was well-trodden, indicating either that it was in constant use by a few or used occasionally by many. From the base of the plateau it angled off through the bush in the direction of the U at the head of the canyon. As they went on, the roar of the cataract grew steadily in volume and Sandy was glad of that since it made their approach more stealthy.

Hidden Village

AFTER a mile or so Sandy noticed a little break in the bush. He halted, motioned the others to stay back, and crept ahead with drawn revolver until he had a view of what lay beyond.

It was a village with crude palm-frond huts set about, helter-skelter, under the trees. A few brown, naked children played seemingly here and there, and a man dressed in skins came and went between the cook fires and the stream. There were men visible, too, taking their ease around the huts or sauntering about the village. They were short and squatly. Their stringy black hair fell about their shoulders and their features were immobile as stone.

Sandy puzzled over the costume, for in it he recognized certain features known to have been common to the ancient Mayas.

He stole back to the others, reporting briefly what he had seen. "They look like bush Maya."

Helen asked, "What are bush Maya?"

"The kind who live far from the huts of the white man, in the depths of the jungle. A scrubby, degenerate lot, but they usually have woven fabric and some modern weapons. These fellows appear to have neither."

Gil said, "Anyhow, they solve a few riddles for us, chief. We know who was responsible for that path, up the big pyramid, and the copal on the altar of the Serpent God."

Sandy said thoughtfully, "But their presence makes new difficulties. They must be worshipping that Serpent God or they wouldn't be burning incense to him. And we know that one of them saw us there at the altar. He is probably reporting it right now to his head man."

Helen's eyes opened wider. "And they wouldn't like our interfering with their gods, would they? They might make us trouble."

"They might very well make us trouble," Sandy said.

# Dragons Top Youngsville, Bow, 14-6, to Academy Hi

## WAGE CLOSE BATTLE WITH ERIE ELEVEN

Showing a complete reversal of the form they displayed against Youngsville on Saturday, the Warren High school Dragons made an interesting ball game out of their grid tussle yesterday on Russell field against Erie Academy, before yielding victory by a 14-6 score.

Over a 1,000 holiday spectators, including a host of fans from Erie, filed into the Russell Field enclosure to watch the contest, and none left disappointed because they hadn't seen a truly fine encounter. The Leidigmen surprised local random at the start with a fine defensive style which stopped the Academy attack during the first period, a quality which was lacking against Youngsville in the season opener.

They broke through the invaders' forward wall to spill the secondary before sizeable gains could be made, and not until a 42-yard aerial as the first chapter came to the close, did Academy approach the local goal.

That toss, McVay to Katzell, set up the first of two Lion touchdowns, all that could chalk up against the stubborn Blue and White eleven. Javorek pounded the local line and worked the ball, in four plays, to the 10 yard stripe.

and another pass, McVay to Fornalzyk struck pay dirt. McVay plunged for the point and Academy took the reins.

But the Warrenites kept the struggle alive with continued hard play, held the visitors on even terms through the remainder of the second canto and the entire third chapter before the final Erie score was made early in the final period.

Academy launched a 76-yard parade to the Warren goal line near the end of the third quarter, and pushed across their final six-pointer in the fourth on a seven-yard pass, McVay to Fornalzyk again. Another toss, McVay to Schreengost, added the conversion.

Warren's pony backfield, entering the fracas late in the final period, injected new spirit into the Dragon cause, and with Gusti Arrigo firing passes all over the gridiron, most of them hitting a target, the locals counted their only score with about two minutes of the game remaining.

A pass to Jack D'Angelo was good for seven yards, and the fleet-footed backfield understudy scampered 30 more yards before he was hauled down on Academy's 11 yard stripe. For three downs the Lions held, then Arrigo rifled an end zone skyline into the end zone where Chuck McVay pulled it in and completed the scoring. A pass for the extra point was knocked down.

Warren marked up five first downs to Erie's nine.

## EAGLES GAME IN LOSS TO LOCAL SQUAD

The Youngsville High school drew plaudits from the fans in Saturday's season-opening football game at Wilder Field against the Warren High Dragons, presenting a scrappy team that battled toe to toe with the Leidigmen right to the finish line before yielding victory by a slim 13 to 0 margin.

The contest might have been regarded as a moral victory for the Passaro charges, for they gave the Blue and White an unexpectedly hard scrap, and would have found themselves in a much closer battle but for a costly first quarter mistake which netted the Leidigmen a touchdown.

Backed up against their own end zone stripe, a Youngsville back who was trapped in the coffin corner, let fly with a pass into the flat, and it was taken in by Warren's alert Dick Kifer, letterman back, who trotted ten yards and over the goal line for the first score. Gerald Vesling hit the line for the extra point and the Leidigmen had the advantage.

A Youngsville drive, as pretty a bit of offensive maneuvering as fans could ask for, traveled 68 yards in 10 plays just before the half, but the gun for intermission sounded and stemmed the march goalward on the Dragon 17 yard line.

In the fourth stanza, Warren, playing its finest football of the afternoon, launched a drive of 63 yards to net their other six-pointer.

Mike Bleech bounded over right tackle into the end zone on a short line play to complete the scoring. Lloyd Dickerson failing in a plunge for the point.

The game proved several things, not the least of which is the fact that Youngsville opponents had better guard themselves with armor of steel, for the Red and White juggernaut must be respected. The Warren eleven made it obvious that until a pair of ends are developed satisfactorily, the trail they've struck is going to be bumpy. Bright spots in the Dragon play, however, disclosed a better pass defense than they've had in recent years, and an accurate aerial attack which troubled the Eagles' offense. Lloyd Dickerson did the firing Saturday and Mike Bleech was on the receiving end of the major portion of the afternoon.

## S-W CAN WIN LOOP CROWN VIA VICTORY

Winners for the second successive time in their Friday night encounter with Recreation Center. Struthers-Wells can clinch the title of the City Softball League via a third victory this evening when the two teams battle at six o'clock on the west side diamond.

The plant workers scored a 7-5 triumph Friday evening before a large crowd, staying off a late rally on the part of the Center to win.

Harry Wooster was again the winning pitcher, while Ed Seagust suffered his second setback.

Wooster won his own ball game with a home run scoring two runs, and a triple that sent one tally across the pan.

## CARDS, BUMS SHOW STRAIN OF HOT RACE

BY JUDSON BAILEY

Associated Press Sports Writer  
The Brooklyn Dodgers and St. Louis Cardinals are giving the National League its typical tight finish, but both clubs seem likely to stay within the speed limit in their race down the stretch.

Both teams looked tired and wobbly in dividing Labor Day doubleheaders and kept the margin between them unchanged at 2½ games. Today the standing was:

Games To	
Won	Lost Behind
Brooklyn	93 43 18
St. Louis	91 46 2½ 17

At the end of the Dodgers' recent western trip Manager Leo Durocher named the five pitchers he was relying to bring Brooklyn home in front. They were Rookie Max Macon and the veterans Whit Wyatt, Curt Davis, Kirby Higbe and Bobo Newsom. Over the weekend all five worked and not one of the veterans, pitching on short rest, was able to last a complete game.

Yesterday at Boston Davis was removed after three innings although Dolph Camilli had given him a three-run lead with his 22nd home in the first frame. The Dodgers ultimately won 11-4 with a six-run spurge in the fourth frame, but Rookie Les Weber received the credit.

# BANK SHOTS

BY FLOYD PASSINGER, Sports Editor

That announcement by the borough police department, cautioning youngsters from playing football in the borough streets may have had its serious angle, but also had a pleasing one too. At least, it proved there are still some kids coming along who are willing to scrimmage a little on the sandlots. You don't see vacant lot grid contests very often any more. By way of the hilltop we see Marshall Parshall and Bob Ritchie played in last week's Kane Open golf tourney. Parshall shot an 83 net, with a six-stroke handicap. Ritchie, given 12 strokes, had an 81. The event was won by Jack Spear, of St. Marys, who had a 78 gross, was allowed six strokes, and carded a 72 net. Beginning of the bowling season is only a week away. The Industrial tees off next Monday night. The City League dittoes. Caseys begin on Tuesday, Wednesday will find Struthers-Wells at the PBC. Thursday the Commercial loop opens. Friday night the little ladies get down to business. From there it's a good bet you're going to see the biggest bowling campaign this town ever realized. What a wise move it must have been for someone to come front and center and cut semi-pro football off the local fall athletic program is evident in the fact that not a single complaint has been registered. If that's the case as it will stand, we wonder who the Jackies would have appealed to to fill the bleachers at Russell Field.

Interest is gone in that type of sport for the duration; let's give it a fair chance when the war is over by giving it a rest now.

Willard Foley, now of Somerset, former sports editor of the Warren Evening Times and a popular gentleman about town in past years, was visiting a host of friends yesterday. Fritz Kennett, who scribbles a little sport in a New York City suburb where his father runs a newspaper, recently passed along a pat on the back for Dr. Quay McCune, now in the navy, but a former teammate of Kennett on Dragon grid squads under Leidig. They're both a couple of footballers whose images "J. E." would like to see come along again some day. Johnny Nelson, Jr., of the Bradford Era, not only has forgotten how to write about anything other than the PONY League, but it seems he's also lost the art of accurate reading. Recently we penned a tribute to Warren's J. B. Leidig for his style of coaching, in which every boy gets a chance to make good in a sport, also an opportunity to play whether on the varsity or not. We compared it with surrounding schools, mentioning no names, where mentors are concentrating each year with a few boys in an effort to build a winner. Many other youths are overlooked, and in some instances the only way coaches make winners is by scaring their boys into a "win-or-else" state by cursing. We weren't aiming, though, at Bradford's fine coach, Bob Pfing, but Johnny, pal, you've been around long enough to know that this situation is present in many schools. As for that score about our prediction that Jamestown wouldn't win the PL flag again, we made that when the season started. And we'll wager the Buzzards who would have liked to have seen some of the reinforcements the Falcons received, eh, Junior? Brush it aside, friend.

# "For these are the lasting, truthful things..."

**This is an American soldier.**

He goes to war not with any fanatical theories of race superiority, of any special "place in the sun," nor any desire to rule the world by fire and by sword. He fights for something greater. For decency—for his loved ones—for his Country, not as some war-like symbol, but as the one great refuge in this world where the humble, the meek, and the righteous may live and work in peace.

**This is why he must win.** For these are lasting, truthful things. They are not temporary drugs for the mind, but steadfast things of the heart and the soul. And when the flame of fanaticism finally flickers and goes out, the fires of American decency and honor will still burn.

**It is this same sense of decency and honor** that has bound us all together. We know we cannot all fight. But there is something we can do—and *are* doing—to help. We can help provide the guns, the planes, the tanks, and the ships to put *might behind the right*.

**By the tens of millions,** Americans are saving for Victory in the War Bond Payroll Savings Plan. Every payday we employees, workers and bosses are putting aside 10% of our pay—a dime from every dollar—and every time these savings amount to \$18.75, we get a War Bond. And—because this is the free American way—our money is working double. First it goes in a mighty flow for the instruments of Victory, then—ten years later—it comes back to us, *four* dollars for every three we've put into War Bonds—\$25 for every \$18.75.

**Now look** at the picture again. Then imagine that this soldier were *your* brother, *your* son, or *your* sweetheart.

**Would ten percent** of your pay, in War Bond savings, be too much to help him win—and live?

## 5 Reasons Why

- 1 By investing in War Bonds you help provide the planes, the tanks, the guns and the ships we must have to survive and conquer.
- 2 You prove that you are a patriotic American.
- 3 You aid the morale of our fighting men, by showing them that the entire Nation is behind them.
- 4 You prove to our enemies that we are a United People.
- 5 You protect your own financial future, as every \$18.75 you invest in a War Bond brings you back \$25 in 10 years. You make the world's *safest* investment, by buying a share in the world's most powerful country.

NEW TYPE NAVY TANK-LANDING SHIP FINISHED

Pittsburgh, Sept. 8.—(P)—A new type of U. S. navy tank-landing ship, completed a month ahead of schedule and described by its builders as the largest ship yet launched in inland waters, slid down the ways of the Ohio river yards of the Dravo Corporation here yesterday.

Details of the size, equipment, and construction of the ship were kept secret.

The undersecretaries of war and navy, Robert P. Patterson and James V. Forrestal, sent a message to officials at the launching.

As the big Harvest Picnic and Scrap Roundup was swinging into high gear, the Salvage Committee also stressed the importance of a drive at this time to collect heavy scrap from oil leases. Geo. E. Seavy, chairman of the Oil Division, pointed out that September and October are the ideal months of the entire year for hauling in discarded boilers, pipe, and other oil machinery, some of which may have been lying on the leases for many years. After the first of November, the condition of lease roads will make it impossible to bring in any of this material until spring. In some cases it will be possible to synchronize the oil-lease drive with the Grange drive, since not a few leaseholders are also farmers and Grange members, and whatever they bring in from their oil leases may be credited to the Grange of their choosing.

Since farmers who live in far corners of the county may not wish to haul their scrap clear to Warren for the picnic, the following Weigh Stations have been announced: Youngsville, F. H. York; Bear Lake R. F. D. 1, Lottsville Milling Co.; Grand Valley, G. B. Whitcomb; Sheffield, O. M. Beer Co.; Clarendon, Clarendon Coal Co.; Russell, D. H. Gregory; Sugar Grove, Anderson Bros.; Tidoute, F. R. Jennings. The Warren Weigh Station is at Madison and Crescent streets. They may begin weighing in their scrap as early as Sept. 14 to receive credit Sept. 25 at the picnic. They will receive tickets to the picnic from the weigh stations.

Until 1880 there were 50 different standard times in use in the United States.

War Bond. An additional prize of a \$25 Bond will be given to the individual turning in the greatest amount of scrap, and a special prize of a \$25 Bond to the holder of the lucky number on tickets of admission. A goal of 500 tons of assorted scrap was set for the entire campaign, and belief was expressed in some quarters that the goal would be doubled.

According to a statement by Walter Ward, actively representing the Grangers in the preparations, several Granges are already actively in the field hunting up scrap. It was said that one Grange had already located an old boiler that will run into heavy tonnage, and that another had put its hands on a disused road scraper. It was emphasized that not only the small scrap found in barnyards is desired but big items such as discarded machinery which are likely to be overlooked. In other Granges, committee chairmen have been appointed and the Scrap-Hunt will be on in full blast by tomorrow. Granges are reminded that they may solicit not only their own membership but also farmers who are not members of any Grange. They may also solicit individuals and firms who have no connection with the farming business. "We don't care where the scrap comes from," said Mr. Albaugh, "just so we get it."

Sherwood Now Flying "Minute Man" Flag

The Sherwood Refining Company is the most recent Warren Concern to obtain and fly the "Minute Man" flag showing the participation of this company in the pay roll allotment plan for purchase of War Savings Bonds by employees through regular deductions from their pay. The War Savings Committee of Warren and Forest Counties, as well as the other industries who have adopted this plan, join in congratulating the Sherwood Company employees and A. J. Franks, Manager, for helping to keep this district in the forefront of the bond buying program.

## Boys' Work Secretary Is Selected

Completing the re-staffing of the local Young Men's, Christian Association, Meryl H. Ruoss, assistant boys work secretary of the Lancaster Y. M. C. A., will enter upon his duties as head of the boys' division of the Warren Association on September 15th. Mr. Ruoss was invited to become the boys work secretary of the "Y" at a special meeting of the board of directors last week, and his acceptance has now been received.

With William L. Parmelee, who will enter upon his duties as physical director also on Sept. 15, and Ralph H. Wagner, who succeeded Reah W. Reynolds as general secretary on August 15th, Mr. Ruoss' acceptance fills the three-man

staff personnel of the Warren Association. A. H. Yerg, who has been chairman of the special committee responsible for filling the three vacancies, expressed his gratification and that of the other Y. M. C. A. directors with the caliber of the new staff leadership.

Mr. Ruoss is a young, athletic-looking man of very pleasing personality, who comes to Warren very highly recommended by those with whom he has worked. Although single at present, he will be married sometime this month. His bride-to-be is a music supervisor in the public schools. Mr. Ruoss himself is a pianist and for three years was a vocal student at Curtis Institute, Philadelphia. After that, until he entered full-time Y. M. C. A. work at Lancaster, he was a student at West Chester State Teachers College.

The new boys work secretary comes from one of the most active, largest and progressive boys divisions in the state, and he has received his training from one of Pennsylvania's most outstanding directors of boys work. Before entering Y. M. C. A. work professionally, he served a number of years on the Lancaster boys camp staff as director of religious work. His church affiliation is Lutheran.

General Secretary Wagner promises that the completion of the "Y" staff will be followed by immediate preparation for a full-rounded fall and winter program of educational, social, recreational and religious activities—a program in which men and boys of all ages will find considerable of interest and value to them. The staff will endeavor to offer the leadership and program called for by the special needs and interests of times like these.

Mr. Wagner announced, also, that with the opening of school, the boys swimming classes will be conducted in the late afternoons and early evenings, as last spring before school closed. Announcement of the opening of gym classes will await the arrival of Mr. Parmelee next week. In the meantime, all facilities are being put in shape for the hard usage of fall and winter months.

## Safe Holiday Is Observed In the County

Without special celebration, Warren borough and county citizens spent the holiday-weekend quietly but safely, according to reports today.

The borough police department announced that not a single accident was reported during the three-day weekend and the local barracks of the state motor police also reported a clean slate throughout the entire county.

Moreover, no fires occurred, the caution exercised by county citizens paying dividends as a result.

Most of the offices in the borough were closed, as well as stores and some industries, though three of the larger war industries worked through the holiday.

Judge Allison D. Wade presided over a quiet and brief session of court at the court house, during which time petitions were filed and minor business brought before the court. No important cases were on the docket, and the jury had been dismissed prior to the court session.

Erie Academy paid its annual Labor Day visit to Russell Field to provide football entertainment for local and area fans, and over 1,000 witnessed a thrilling 14-6 triumph for the Lions over the Warren High school Dragons.
